STATEMENT OF WORK FOR THE REBUILD OF THE
HOWITZER, MEDIUM, TOWED: 155MM, M198
NSN 1025-01-026-6648

1.0 SCOPE. This Statement of Work (SOW) and the applicable Depot Maintenance Work Requirements (DMWR), set forth tasks and identify the work efforts required for the rebuild of the Howitzer, Medium, Towed: 155MM, M198. This document provides the minimum requirements to rebuild the Howitzer, Medium, Towed: 155MM, M198 to Condition Code "A." Refer to Appendix "A". List of Definitions, for Rebuild and Condition Code "A" definition. The National Stock Number (NSN) listed here shall be known as the Howitzer, Medium, Towed: 155MM, M198, NSN 1025-01-026-6648, hereafter referred to as the M198 Howitzer.

1.1 Background. REBUILD is defined as "That maintenance technique to restore an item to a standard as near as possible to original or new condition in appearance, performance, and life expectancy. This is accomplished through a maintenance technique or complete disassembly of the item, inspection of all parts or components, repair or replacement of worn or unserviceable elements using original manufacturing tolerances and/or specifications and subsequent reassembly of the items."

2.0 APPLICABLE DOCUMENTS. The following documents form a part of this SOW to the extent specified. Unless otherwise specified, the issues of these documents are those listed in the Department of Defense Index of Specifications and Standards (DoDISS) and supplement thereto which is in effect on the date of solicitation. In the event of conflict between the documents referenced herein and the contents of this SOW, the contents of this SOW shall be the superseding requirement.

Copies of Military Standards and Specifications are available from the DOD Single Stock Point, Document Automation and Production Service, Building 4/D, 700 Robbins Avenue, Philadelphia, PA 19111-5094 commercial telephone number (215) 697-2179 or DSN 442-2179, or <http://www.dodssp.daps.mil>. Copies of other government documents and publications required by contractors in connection with specific SOW requirements shall be obtained through the Contracting Officer: Contracts Department (Code 891), P. O. Drawer 43019, 814 Radford Blvd., Marine Corps Logistics Command, Albany, GA 31704-3019, commercial telephone number (229) 639-6761 or DSN 567-6761. Copies of engineering drawings, if applicable, shall be obtained from the Supply Chain Management Center, Attn: Code 583-1, 814 Radford Blvd., STE 20320, Albany, GA 31704-0320, commercial telephone number (229) 639-6476 or DSN 567-6476.

3.0 REQUIREMENTS

3.1 General Tasks. In fulfilling specific requirements, the Contractor Facility shall:

- a. Rebuild each M198 Howitzer in accordance with the guidance listed below:

MIL-STD-129

DMWR 9-1025-211-1

MI-08198A-35/7, MI-08198A-35/8, MI-08198A-35/3 and MI -08198A-35/9

TM 9-1025-211-20&P W/Chg1&2

and in accordance with ANSI/ISO/ASQC Q9001-2000. Upon completion, Rebuilt M198 Howitzers shall be in Condition Code "A," as described in Appendix "A" of this SOW.

- b. Provide materials, labor, and facilities necessary to rebuild the M198 Howitzer.
- c. Be responsible for all structural and mechanical requirements associated with the Rebuild of the M198 Howitzer.

3.2 Specific Tasks. The following tasks describe the phases of M198 Howitzer Rebuild.

3.2.1 Phase I - Induction. Induction of M198 Howitzers shall require a joint Limited Technical Inspection (LTI) to ensure the completeness of the M198 Howitzer. A complete M198 Howitzer for rebuild purposes will consist of the M198 Howitzer, Installed Items, and Boxed Repairable Items as listed in SL-3-08198A W/Chg 1 dtd 9 Aug 94 (to include M198 Howitzers without HYPAK Mod) under heading "Supply System Responsibility." A copy of the induction LTI for each M198 Howitzer shall be provided as a means of identification for Supply System Responsibility items, as well as the certification of a complete M198 Howitzer to Marine Corps System Command (MCSC) (Code AFSS), Suite 20343, 814 Radford Blvd., Albany, GA 31704-0343. The Contractor Facility may induct M198 Howitzers for rebuild if the missing items do not hinder the rebuild process. Determination of induction with missing items shall rest with the Contractor Facility. The Contractor Facility shall not be responsible for missing items identified during the joint LTI.

3.2.2 Phase II – Rebuild.

- a. 100% Rebuild of the M45 Recoil Mechanism.
- b. 100% Rebuild of the brake system.
- c. 100% Rebuild of the Equilibrator system.
- d. 100% Rebuild of all optics devices.
- e. 100% Replacement of all Hydraulic hoses.
- f. 100% Replacement of all Tires.
- g. Rebuild data shall be recorded on M198 Howitzer data plates in accordance with MIL-STD-129, DMWR 9-1025-211-1, TM-4700-15/1H and ANSI/ISO/ASQC Q9001-2000.

h. The Contractor Facility shall ensure MI-08198A-35/3, Installation of Ring Shield Skid on Trail Assemblies is applied to each M198 Howitzer.

i. The Contractor Facility shall ensure MI-08198A-35/7, Procedures for Drilling Drain Holes in the Cradle Assembly is applied to each M198 Howitzer.

j. The Contractor Facility shall ensure the Weapons Record Book is updated to reflect all approved modifications in accordance with TM-4700-15/1H, Ground Equipment Record Procedures.

k. The Contractor Facility shall ensure MI-08198A-35/8, Install/Remove Hydraulic Power Assist Kit is applied to each M198 Howitzer once kits are available. No retrofit of completed M198 Howitzers is required.

l. M198 Howitzers to be painted 3-C Green or Tan in accordance Marine Expeditionary Forces that are receiving them from the Maritime Propositioning Ships Rotation Program.

m. The Contractor Facility shall ensure MI-08198A-35/9, Drilling Drain Holes in the Lower Procedures for Lower Carriage Assembly for the Howitzer, Medium, Towed, 155MM, M198 is applied.

n. The Contractor shall ensure that all M199 Cannon Tubes for the M198 Howitzer that have less than 50% Tube life remaining shall not be sent to Blount Island Command, Florida. Refer to TM 9-1000-202-14 Section K-4 dated 01 Feb 99 for instructions.

o. The Contractor Facility shall ensure 100% replacement of all Travel Lock Assemblies on the M198 Howitzer in accordance with TM 9-1025-211-34 W/Chg 1-3.

3.2.3 Phase III - Inspection and Testing. Inspection and testing shall be in accordance with:

MIL-STD-129

DMWR 9-1025-211-1

MI-08198A-35/3, MI-08198A-35/7, MI-08198A-35/8 and MI-08198A-35/9

TM-4700-15/1H, TM 9-1025-211-34 W/Chg1-3, TM 9-1025-211-34P W/Chg1-3,

TM 9 1025-211-10 W/Chg1&2, and TM 9-1025-211-20&P W/Chg 1&2

TM 9-1240-375-34&P W/Chg 1 & 2 and TM 9-1240-375-34 W/Chg 1 & 2

TM 9-1000-202-14

SL-3-08198A W/Chg 1 dtd 9 August 94

DoD 4000.25-1-M

ANSI/ISO/ASQC Q9001-2000

3.2.4 Phase IV – Packaging, Handling, Storage and Transportation (PHS&T)

a. The Contractor shall be responsible for preservation and packaging of item(s) being repaired under the terms of this Statement of Work. Items scheduled for long-term storage or

overseas shipment shall be in accordance with Level "A" requirements of SPI P12008000, which may be obtained from Storage and Distribution Department (Code 580), Business Management Branch (Code 581), 814 Radford Blvd., Suite 20320, Albany, GA 31704-0320, commercial telephone number (229) 639-6786 or DSN 567-6786. Items scheduled for domestic shipment, immediate use or short-term storage shall be in accordance with Level "B" requirements. The SPI shall be tailored as follows:

(1) General Requirements, the reference to 11.00 X 20R tires on Page 5, Paragraph 4.0 of the SPI is incorrect. Correct requirement is Radial tires, part number 12909220.

(2) Detailed Requirements, Packaging of Basic Issue Items (BII) shall be the responsibility of the Repair Facility upon completion of Rebuild.

(3) Discrepancies between the SPI and SL-3-08198A w/change 1 dated 9 Aug 94 shall be resolved in favor of the SL-3.

b. Marking for shipment and storage shall be in accordance with MIL-STD-129.

c. The Marine Corps will provide the contractor with the shipping address(s) for delivery of the repaired equipment. The contractor shall be responsible for arranging for shipment to the pre-designated site(s). The Marine Corps will be responsible for transportation costs associated with shipping the subject equipment to and from the Contractor.

3.3 Configuration Control. The contractor shall apply configuration control procedures to established configuration items. The contractor shall not implement configuration changes to an item's documented performance or design characteristics without prior written authorization. The base line configuration has been defined by the written procedures or material contained in manuals, standards, and instructions or engineering drawings. If it is necessary to temporarily depart from the authorized configuration, the contractor shall prepare and submit a Request For Deviation. MIL-HDBK-61 and ANSI/EIA-649 provide guidance for preparing this configuration control document.

3.4 Quality Assurance/Quality Control. The Contractor shall provide and maintain a Quality System that as a minimum adheres to the requirements of ANSI/ISO/ASQC Q9001-2000, Quality Management Systems - Requirements. Authorized MCSC (Code AFSS), Albany, Georgia personnel shall be permitted to observe the work/task accomplishment at the Contractor Facility upon prior coordination with MCSC (Code AFSS), Albany, Georgia personnel and the Contractor Facility.

3.5 Government Furnished Equipment (GFE)/Government Furnished Materiel (GFM). The Management Control Activity (MCA) (Code 571-1) will coordinate Government Furnished Equipment/Government Furnished Materiel (GFE/GFM) requests and maintain a central control system on all government owned assets in the contractor's possession. The MCA will forward GFE Accountability Agreement to the contractor for signature on annual basis to establish a chain of custody and identify property responsibilities for the Marine Corps assets. The

contractor is to acknowledge receipt of GFM to the MCA within 15 days of receipt. This can be done by mailing a copy of the DD1348 to the Materiel Management Department, Management Control Activity (MCA) (Code 571-1), 814 Radford Blvd., STE 20320, Albany, GA 31704-0320 or faxing a copy to commercial telephone number (229) 639-5498 or DSN 567-5498.

Selective interchange is available on a case-by-case basis. Prior approval must be obtained from Marine Corps Systems Command (Code AFSS) Albany, Georgia.

3.6 Contractor Furnished Materiel (CFM). The Contractor may requisition materiel as required in the performance of the SOW through the DoD Supply System. DoD 4000.25-1-M, (MILSTRIP), Chapter 11 provides guidance to contractors on the requisitioning process. The contractor's decision to utilize CFM procured from the DoD Supply System shall be based upon cost effectiveness, availability of materiel and the required completion/delivery date.

3.7 Rejection. Failure to comply with any of the specified requirements listed herein shall be reason for rejection by MCSC (Code AFSS), Albany, Georgia. The Contractor Facility shall, at no additional cost to MCSC (Code AFSS), Albany, Georgia provide the following:

a. Develop an approach for modification or correction of all deficiencies.

b. Upon approval of a documented approach, the Contractor Facility shall correct the deficiencies and repeat the verification until an acceptable compliance with acceptance test procedures is demonstrated.

4.0 REPORTS. All report deliverables shall be sent to the following address: Marine Corps Systems Command. Attn: Code AFSS, 814 Radford Blvd., STE 20343, Albany, Georgia 31704-0343.

4.1 Monthly Progress Report. The Contractor Facility shall provide Monthly Progress Reports to Marine Corps Systems Command (Code AFSS), Albany, Georgia summarizing the progress and status of the Rebuild program. The report shall be due the tenth working day of each month for the previous month in the format contained in Appendix "B" to this SOW.

4.2 Pre-Shop Analysis Checklist. Upon receipt of a M198 Howitzer for rebuild, a copy of the Pre-shop Analysis Checklist shall be forwarded to Marine Corps Systems Command (Code AFSS), Albany, Georgia in the format contained in Appendix "C".

4.3 Final Assembly And Testing Checklist. Upon delivery of a Rebuild M198 Howitzer, a copy of the Final Assembly and Testing Checklist shall be forwarded to Marine Corps Systems Command (Code AFSS), Albany, Georgia in the format contained in Appendix "D".

APPENDIX A

DEFINITIONS

1. PURPOSE. The definitions contained in this appendix are provided to assure a more complete understanding of the contents of this SOW.

2. DEFINITIONS

a. IROAN. A maintenance technique which determines the minimum repairs necessary to restore equipment, components, or assemblies to prescribed maintenance serviceability standards by utilizing all available diagnostic equipment and test procedures in order to minimize disassembly and parts replacement.

b. Rebuild. The restoration of an item to a standard as nearly as possible to its original condition in appearance, performance, and life expectancy. This process requires restoring an item of supply to a serviceable condition by disassembly; inspection of each component part and reassembly, using new or serviceable assemblies, subassemblies, and parts; followed by inspection and operational tests. The terms "rebuild" and "overhaul" are synonymous.

c. Condition Code "A". Serviceable/issuable without qualification. New, used, repaired, or reconditioned material which is serviceable and issuable to all customers without limitation or restriction.

d. Contract Data Requirements List (CDRL). The CDRL is a list of data requirements authorized for a specific procurement and the sole contractual document listing the data and information to be delivered under contract.

PRE-SHOP ANALYSIS CHECKLIST

1. M199 CANNON ASSEMBLY

(in accordance with TM 9-1000-202-14 and TM 9-1025-211-34 W/Chg 1-3)

- a. Overall condition: Inspect for broken, damaged, or missing parts.

Remarks:

- b. Gun Tube Stowage Lock:

(1) Inspect for broken, damaged, or missing parts.

(2) Operational check.

Remarks:

- c. Cannon Tube: Inspect for broken, damaged, or missing parts.

Remarks:

- d. Thermal Warning Device: Inspect for broken, damaged, or missing parts.

Remarks:

- e. Breech Mechanism Assembly: Inspect for broken, damaged, or missing parts.

Remarks:

- f. Firing Mechanism Assembly: Inspect for broken, damaged, or missing parts.

Remarks:

2. M39 Carriage Assembly:

- a. Overall Condition: Inspect for broken, damaged or missing parts.

Remarks:

- b. Cradle Assembly: Inspect for broken, damaged or missing parts.

Remarks:

- c. Top Carriage Assembly: Inspect for broken, damaged or missing parts.

Remarks:

d. Bottom Carriage Assembly: Inspect for broken, damaged, or missing parts and functional condition as required for the following components:

Remarks: When completing the inspection use the word "OK" for no discrepancies, use the initials "Rmk" for discrepancy and put number and discrepancy in Remarks area.

- (1) Left/right hydraulic ram pump.
- (2) Actuator cylinder.
- (3) Left/right arm and spindle.
- (4) Left/right manual brake assembly.
- (5) Left/right brake head assembly.
- (6) Detent.
- (7) Clevis assembly.
- (8) Left/right transverse stop.
- (9) Left/right carriage spade.
- (10) Left/right trail assembly.
- (11) Left/right trail lock.
- (12) Gun tube travel lock.

- (13) Base plate.
- (14) Manifold assembly.
- (15) Locking assembly.
- (16) Tires and wheels.

Remarks:

3. Traversing Components:

a. Traversing Mechanism:

- (1) Inspect for broken, damaged or missing parts.
- (2) Perform hand-wheel torque test.

Remarks:

4. Elevation Components:

- a. Inspect for broken, damaged or missing parts on all components.

Remarks:
